

SPECIALTY PAVING FOR DESIGN ORIGINALITY

Originality in design is certainly a key ingredient of genuine success.

Recognition of this unchanging truth has been the driving force behind the development of UrbanStone's moulding technique.

This gives architects and designers the flexibility to create virtually any shape, size and colour, ensuring client satisfaction with original design ideas and executions.

Design enhancement of urbanscapes is always given priority at UrbanStone.

Innovation in production, remarkable new technology and functional accessories have given us the ability to allow designs to autograph these leading professionals' work through the imaginative incorporation of individually shaped and designed accessories.

UrbanStone welcomes innovation in design and will continue to push this aspect of urban landscaping to new heights as the company's latest generation of manufacturing techniques gives rise to more new products and even more creative designs.

Banyule City Council, Heidelberg - specially designed themed paving for the 1956 Olympic Village site refurbishment.

Star City Casino, Sydney - imaginative combinations of size, texture and colour are used to great advantage.

Double Bay, Sydney - style and elegance in design have created this impressive shopping precinct.

Joondalup City, Perth - a unique and stunning design for a magnificently co-ordinated landscape.

Burswood Casino and Resort Perth - specially themed design for a special application.

Joondalup Cultural Centre, Perth - product integration gives a uniqueness of design.

UrbanStone's off-form Rondo Flora gives a special effect to this stunning pavescape.

Creative designs - imagination is the only limitation.

Polished exposed aggregate modules create stunning entry designs.
